About Me

As a final year undergraduate, I specialize in full-stack web development and Java programming, with hands-on experience in both disciplines through various projects. I also have a keen interest in DevOps methodologies. My university education has equipped me with robust teamwork skills, honed through collaborative group projects. I am dedicated to leveraging my skills to create efficient and innovative solutions in software development.

Education

University Of Peradeniya
Following Bachelor's Degree in Computations & Management
2021 - Present

Institute of Software Engineering - IJSE
Higher National Diploma of Software Engineering
2023 – Present

Technical Skills

- Java (SE)
- HTML , CSS , JS
- Spring Boot
- MERN Stack (MongoDB , ExpressJS , ReactJs , NodeJS)
- Angular
- mySQL

Soft Skills

- Good Communication
- Critical Thinking
- Problem Solving
- Leadership
- Team Work

Language

- English
- Sinhala

Project Experience

Web Projects

Developed responsive websites using HTML, CSS, and JavaScript, incorporating the Bootstrap framework for streamlined design and functionality, ensuring optimal user experience across various devices.

Portfolio Web Site	**Github**
Burger Shop Web Site	**Github**
POS System	**Github**
Recipe Web Site	**Github**

Java Projects

Developed Java applications utilizing Object-Oriented Programming principles, implemented Hibernate for database management, and built intuitive user interfaces using JavaFX, ensuring functionality and a smooth user experience.

Library Management System	**Github**
Sathsara Motors Management System	**Github**
